The site has photos, hardiness information, and Mike's descriptions from "The Plants We Grow".  This will be a work in progress as it takes time to put over 700 varieties into the database. Therefore, please call the office if you are in need of information and can not find it in the database.

### CONDITION OF SALES

Please note the change in our price list. We now have prices listed for quantities of one through five and another lower price for six or more ordered. The price for most larger containers, and some rare plants, is the same for all quantities ordered. If you order more than five and we prorate your quantity to five or less we will charge you the lower price.

ORDERS are accepted subject to prior sale, and to condition of stock at delivery date.

*No spring orders held after May 1st unless special arrangements are made.*

We reserve the right to place limits on the amount ordered for certain items before prorating for a more equitable distribution of our material.
